

# Maximizing serious illness support through intensive care management

You know that the health care experience can be confusing for patients. And, you want them to have resources and tools that can make it easier. We're here to help. With ActiveHealth Management, your patients will have highly personalized, relevant support designed to reassure and comfort them as they manage their health needs.

## How we do it

Your patients are unique. They should expect to have an experience that meets their specific needs. We work with you, your patients, their families and their other providers to create care plans that help your patients access high quality care and have the coordinated services they need.

### Person-centered support

Our specialized interdisciplinary care management teams can provide additional support when your patients need it. And we make it easy for them to reach us. They can use secure messaging in our digital platform, phone calls and make in-person connections.

### Powerful personalized insights

Thousands of clinical rules in our patented CareEngine® technology help us identify and act on health opportunities sooner than we ever have before.

- Your patients will get relevant, timely and targeted information.
- We'll share it with you and their other providers to help maximize the impact of their care plans and reduce unnecessary services.

## Why ActiveHealth?

- Experience
  - Over 20 years in population health
  - More than 20 million members (over 1 million public sector)
- Expertise
  - Founded and staffed by doctors
  - Committed to supporting high quality, evidence-based care
  - Accredited by NQCA and URAC
- Resources
  - Part of the CVS Health Family - number 7 on the list of Fortune 500 in 2018\*

Together we can improve the health care experience for your patients.

ActiveHealth Management staff doesn't provide treatment or care. They provide general information and help individuals get the care they need.
