

CONFIGURE YOUR SOLUTION AND LEAVE THE REST TO US

At ActiveHealth our goal is to exceed your expectations right from the start.

There are five key components to our implementation process

that help set you and your members up for success.

Be strategic, collaborative and transparent.

These are the hallmarks of an ActiveHealth implementation.

1

Dedicated implementation manager

You'll never have to wonder who to call with ActiveHealth. We assign a dedicated implementation manager who stays with you through the implementation period and past your go-live date.

2

Thorough discovery and data acquisition

We'll do a deep dive into your goals and objectives and how to configure our programs to help you accomplish them. We'll also establish parameters for an easy, secure transfer of data.

3

Consistent communication and transparency

During your implementation period we'll have regular meetings to update you with our progress and answer any questions you may have.

4

Meticulous training and testing

We check and double check account configurations, the integrity and integration of data files. We also train our staff on your program designs to make sure we're poised to deliver flawless service.

5

Effective member onboarding

The first step toward engagement is creating awareness. Our proven onboarding communication plan can help generate interest and excitement at go-live and beyond.

Are you ready to bring your ActiveHealth solution to life?

LET'S TALK

Services are provided by ActiveHealth Management, Inc. Our programs, care team and care managers do not provide diagnostic or direct treatment services. We assist you in getting the care you need, and our program is not a substitute for the medical treatment and/or instructions provided by your health care providers.
